DIRECTOR OF CENTRAL INTELLIGENCE
Security Committee

SECOM-D-121

30 April 1986

MEMORANDUM FOR: SECOM Members
Chairman, Computer Security Subcommittee

25X1 FROM:

Chairman

SUBJECT: Control of Computer Disks

25X1

2. I am sending the memorandum to the Chairman of the SECOM Computer Security Subcommittee (CSS) for his action because of the subject matter. I do not, however, consider that the solution can only come from this subcommittee. I therefore invite the SECOM members and info addressees to provide me any suggestions on the subject for passage to Chairman, CSS. Based on the input I receive, it may be that a joint effort between subcommittees or groups is needed.
